What is the AEW Program?

AEW is a one-credit pass/fail course designed to supplement the theory taught in the corresponding course. The primary goal of this workshop is two-fold. The first is to assist students in developing mastery of fundamental concepts and principles of the corresponding course. The second is to help students strengthen their problem solving skills. The weekly modules are designed to reinforce the proper use of formulas and/or understanding of concepts through a series of repetitive exercises and drills.

What is the workshop format?

- A weekly small group workshop, ideally comprising 6-8 students
- Led by an undergraduate facilitator
- Focused on MASTERY of course material, rather than MEMORY
- Based on active participation by all students
- Designed to improve the participants' problem-solving, interpersonal, and teamwork skills
- Participants can enroll for the workshop via MySlice during course registration
- Workshop participants must also be concurrently registered for the coinciding course in which they are seeking supplemental support
